

Hands-on workshop on Forensic DNA Fingerprinting

23rd Nov – 04th Dec, 2026

BRIC- CDFD, Hyderabad

This workshop on Forensic DNA Fingerprinting is designed to provide participants with a comprehensive understanding of DNA profiling techniques used in forensic investigations. The program integrates theoretical concepts with hands-on laboratory exposure, focusing on real-world forensic applications.

LECTURES

- Fundamentals of Forensic genetics
- Collection and preservation of biological Evidence
- DNA Extraction, quantification, and STR profiling
- Capillary electrophoresis and Data analysis
- Interpretation and Reporting of DNA profiles
- Case Studies and Courtroom perspectives

HANDS-ON SESSIONS

- DNA isolation
- PCR setup and amplification
- STR profiling workflow
- Data analysis and interpretation
- Legal Application: Reporting standards and mock courtroom presentation
